BANC Surf System

Mobility for more freedom.

This innovative system frees up the swimming area during use and the pool deck after securing the pool. BANC Surf System covers oval, polygonal and kidney shaped pools, etc. Whilst retaining the aesthetics of the pool deck.

Non'Co exclusive guarantee

High-tech composite materials providing total resistance to the corrosion phenomenon. 5-year anti-corrosion guarantee on structures.

Adaptable

BANC SURF System is suitable for almost all existing or new pools. Its main innovation provides effective safety for oval, polygonal and kidney shaped pools, etc.

Comfortable and practical

Easily operated by one single person, manual movement. Equipped with travel stops.

1 Perfect alignment

Rails guide the cover perfectly during its movement guaranteeing perfect alignment with the apron in relation to the pool.

2 2 models

Cabled or stand-alone version, depending on the pool's configuration and the required movement distance.

3 Coverlock safety attachment

Easy to use with its ergonomic trigger system. Optional.

Safety

Resting position cover locking mechanism.

4 Ecological

Cover powered by a high-efficiency photovoltaic solar panel integrated into bench slat. Optional.

⁽¹⁾ See general conditions of sale.
* For the slats, the mechanism and the motor (See general conditions of sale).

COLOURS

PVC and polycarbonate slats are available in many other colours. We will study your project on request.
⁽²⁾ In the process of standardisation

Casing colours:
- PVC: white or sand
- Wood: untreated exotic wood

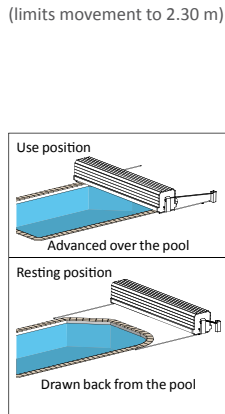

OPTIONAL

- Additional rails (stand-alone version).
- Solar power supply via a sensor integrated into a slat for a perfect look.

MOVEMENT

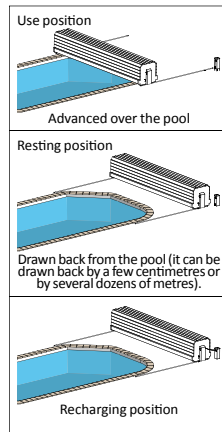

- cabled model

with coiled power lead
(limits movement to 2.30 m).

- stand-alone model

with 2 batteries

The rails may be positioned on or next to the copings.

* Compliant with the standard NF P 90-308.
** Not compliant with the standard NF P 90-308.

Pool dim.	3 x 3 m to 6 x 12 m	
Mechanism	Above water - BANC Classic	
Apron	Square	corners
		Large rounded corners
		Large cut-off corners
Movement	Wheels	Non-retractable rail (existing pool decks)
		Retractable rail (upon request)
Power supply	Stand-alone	Cabled terminal - On-board solar sensor
	Cabled	Cabled terminal
Slats	Support a load of 100 kg High UV protection
