Economical solution

Less evaporation. Improved heat balance for longer, more affordable pool use. Cleaner water.

Discrete and aesthetic

Fits easily on most existing or new pools.

Declutchable motorisation

1 2 types of attachment

A sleek base with no visible attachment or with traditional offset fastening plates.

2 Perfectly adjustable

Height-adjustable legs prevent friction on pool edges.

Fitted with limit switches

Turn the key and in 3 minutes, the cover unrolls or rolls up. The limit switch positions are regulated and managed once and for all.

Connected

Built-in Slow Mode

Can be serially coupled to your water treatment system to regulate depending on the cover position.

3 Quality down to the very last detail

Impeccable finish for the profiled slat wings. Ultrasound welded⁽¹⁾ plugs provide reliability and quality.

No stress

Once unrolled, safety is guaranteed.

AVAILABLE OPTIONS

4 Practical and attractive design

Simple ergonomics and comfort with the Atriblue wireless control box.

5 Coverlock safety attachment

Easy to use with its ergonomic trigger system.

6 Optimal

Wings equipped with brushes limit the transfer of impurities into the pool and reduce the clearance between the brushes and the pool wall.

7 Atmospheric effect guaranteed

With the luminous translucent cover lit by a low voltage LED system.

Guarantee
3
Years*

⁽¹⁾ For manufacturing reasons, some covers may be finished using the traditional bonding method.

* For the slats, the mechanism and the motor. See general conditions of sale.
